ABOUT BC CHILDREN'S HOSPITAL FOUNDATION

BC Children's is the only hospital in the province devoted exclusively to the care of children. That means one million kids—including some of the sickest and most seriously injured—count on the hospital for specialized care they often can't receive anywhere else. Last year, more than 99,000 patients visited the hospital, including its acute care centre, research institute, mental health facility and other facilities. ABOUT MARRIOTT HOTELS OF BC CORPORATE SOCIAL RESPONSIBILITY

We believe in making the communities where we operate better places to live, work and visit. To support the resiliency and sustainable development of these communities, we invest in the vitality of their children, as well as deliver aid and support, especially in times of need. Hence, the responsibility of nurturing our world falls on all of us.

It takes a village to raise a child. Starting with us, this annual golf tournament, one city, one business at a time, is the village that will ensure that every child and their families receive the support they need.

MEET KEIRA

15-year-old Keira has come a long way since late 2017, when she suffered from a major burn. Keira, who was 9 at the time, was holding a hot tray of drinks that spilled on her lap, causing a severe burn to her mid-body region.

Although it was a traumatic and scary time for Keira, she and her parents came to realize that BC Children's was the best place for Keira to be in her situation. "The nurses and doctors were wonderful with her," says David. "They were all so patient and understanding of what she was going through. She developed a special bond with the nurses." He also recalls the special touches the hospital had just for kids, such as a clown stopping by to cheer Keira up and the opportunities to pet the therapy dogs.

Today, Keira returns to the burn clinic every six months for check-ups and will soon undergo laser procedures to remove some of the visible scarring. Every time she visits, she makes a point to stop into the inpatient area to say hi to her nurses.
